Subject: project number C/025/0005 Alton Coal Mine

Mr. Haddock:

We are residents of Kane County and would like to register a strong protest to the Alton Coal Mine. We also work in Kane County. We drive highway 89 to and from work frequently. From a personal standpoint we have huge misgivings regarding the damage to the road surfaces from the trucks, as well as the noise and dust pollution caused by the trucks.

Our biggest concern, however, is the threat to our national parks, streams and water sources, in particular, Kanab Creek. This is one of the most beautiful areas in the nation and we expect our officials to participate in the preservation of and respect for the land and wildlife here. We respectfully request that you take a stand against the Alton Coal Mine.

Thank you for your consideration,
Nancy and Rick Nielsen
